Description

The TCL is a passenger vessel built in 2006 by Batservice Mandal AG in Norway. With its aluminum hull and a full load displacement of approximately 74.7 tons, it is designed to navigate the EU's Community Waterways, zones 3-4. This vessel offers a capacity of 140 passengers and can reach a maximum speed of 37 knots (68.5 km/h). Its equipment includes two HM 461 waterjets and two ZF 2,000 gearboxes, with a total power of 1,961 HP.

Ideal for fast and comfortable excursions, the TCL guarantees a safe and pleasant sailing experience for all its passengers. For more details or to arrange a visit, please do not hesitate to contact us.
