

SALE NEW

kawasaki 310 lx

Description

Experience the thrill of one of the most powerful supercharged personal watercraft in the PWC industry. The all-new, redesigned, Jet Ski Ultra 310 series represents the latest generation of the most iconic name in watersports. This flagship platform features premium, class-leading features from nose to tail, including creature comforts for all-day fun on the water. Trailer packages available – please contact us. Output measured at the crankshaft under controlled conditions. Actual performance may vary.

KEY FEATURES

- Spacious Foot Wells** The deck is flatter and 35 mm lower at the rider's feet, offering more leg room for increased comfort.
- KSRD Kawasaki Smart Reverse with Deceleration** electrically deploys the reverse bucket. Activated with a thumb switch on the right handle, it enables thrust to be controlled with one hand. When deployed, the reverse bucket contributes to deceleration.
- Easy-Access Cleats** Built-in cleats provide convenient cinch points when mooring at a dock. Their clever design helps redirect water overboard.
- Functional Storage** Completely rethought storage system offers a total storage capacity of 168.5 litres. The 124-litre sealed front compartment is complemented by the new 40-litre Easy-Access Storage (behind the handle, accessible from either the left or the right), a 1.7-litre waterproof compartment (inside the Easy-Access Storage), and 2.8-litre Easy-Access Rear Pocket (aft of the rear seat).
- Deep-V Hull** Loaded with technology from Kawasaki's championship-winning machines, the race-developed hull handles with precision and control, with a high level of seaworthiness – and at speeds from idle to its impressive top end.
- Rearview Camera** Rearview camera mounted aft of the rear seat offers riders a supplemental rearward view behind
