Manufacturer Description With a strong heritage in the stand-up watercraft segment and countless race wins and championships, Kawasaki has now moved the category to the next level with a four stroke, 1498cc four cylinder engine, making it the fastest accelerating mass-produced stand up ever. The SX-R has both the performance personality and rider features befitting a new benchmark which is set to Ignite the fun. Features Storage Indent beneath the handle pole offers convenient storage for small items like rope, flare, etc. Items are secured with a rubber net. (2018 colours shown) MX-style handlebar MX-style handlebar features a sporty pad that contributes to the ski's racy looks. (2018 colours shown) Water intake Water intake is via a special low-resistance stainless steel intake grate. Its design, although slightly longer, was based on the highly efficient grate of the 800 SX-R. Hull & Deck All-new hull design offers an ideal combination of high stability and superb cornering performance. Extensive knowledge of the 800 SX-R and 800 SX-R race machines was used in the design of the new hull. Superb cornering performance Development of the new hull incorporated racing feedback.
