

SALE NEW

astondoa 100 century

Description

Astondoa Century 100 was designed to celebrate the centenary of the shipyard and combines large outdoor spaces, to accommodate large groups of family and friends, with refined and comfortable interiors with Italian design.

With superyacht features and great seaworthiness, this model features an extraordinary flybridge to make the most of outdoor sailing.

Thanks to the use of the latest synthetic materials, Astondoa has improved the quality of this boat, which is optimized in terms of space, speed and fuel consumption.

A special feature of this model is certainly the full-beam owner's suite on the upper deck in the bow, while the other guests have four cabins, including twins and doubles, on the lower deck. As far as the accommodation of the crew is concerned, there is an area in the bow below deck consisting of two double cabins, two bathrooms and a large hallway that houses the crew's appliances.
