Eagle 44, by Leonardo Yachts

The Eagle 44 is a 13.3-meter, fast daysailer with classic lines designed by J-class specialist Dykstra Naval Architects. Her long overhangs gives the yacht an elegant look and with the use of modern materials and a modern keel the Eagle 44 is fast. The large open cockpit features optional electric winches that can be controlled from the helmsman's position making single-handed sailing possible. The interior features a double bed and electric toilet. A shower can be used in the cockpit or on the aft deck. Regular maintenance, owners will be able to use the yacht for her true purpose. **Eagle 44: BREATHTAKING.**
