Description

The peculiarity of this boat, unlike the sisters previously built, lies in the transom with a central slide which, in addition to streamlining the line, allows easy access to the swim ladder.

Fantastic specimen, used only fresh water. A few hours of motion, only 269. He never went to the sea, he was always stored after each use. Year of construction 1985, first time put in the water in 1987. Third series with instruments (bollards, lights, accessories) of the second series. Perfect engines. Serial number visible during the visit.
