Flag : USA Delaware

VAT paid in Egypt

Over and above everything else, the sense of space on our S72 is overwhelming. Inside or out, cruising or at anchor, the S Class sportbridge concept is a winning combination of luxury style and performance.

The S Class saloon is an incredible concept. A space that you can arrange and expand to suit the occasion. The solid timber sole of the saloon is laid in continuous planks right through to the cockpit. Full height glazed doors fold away creating a huge one-level open plan entertaining space – part covered, part open and with an optional sunroof further enhancing the concept. Tinted glass is thermo bonded to the superstructure effectively creating 360 degree infinity views with micro mullion pillars to support the window area that sweeps along the saloon and wraps around the helm station.
