azimut Fly 78

4 100 000 € All Tax Included

Description

GRANT US THE PRIVILEGE... NOTHING IS BETTER THAN THE NEW!!

Alberto Mancini, who signs exteriors with a futuristic and glossy cut, and Achille Salvagni, author of the sophisticated interior design, have taken up and won the challenge of the Shipyard: to find the perfect balance between increasingly dynamic lines and increasingly large volumes. The sinuous shapes, external lines, are here interpreted in an unprecedented way, giving a new expressiveness to nautical design.

Azimut 78 Fly also stands out for its unique layout, which offers a division of space typical of decidedly larger boats.

Much attention has been paid to the needs of the shipowner at the same time; hence the need to safeguard the privacy of life on board for guests, placing the spaces dedicated to the crew in the bow, with access from the wheelhouse and galley; the latter rooms that can be completely separated from the living/dining area and the staircase leading down to the sleeping area.

Volvo IPS three-engine propulsion whose advantages are now widely acknowledged: maximum fuel efficiency, excellent silence and manoeuvrability and a layout that allows for increased living space on board.

The first Flybridge of the Azimut-Carbon-Tech generation, the 78 Fly is an ultra-innovative boat built to the highest construction standards.

A new AZIMUT brand boat is an investment that is guaranteed over time! The maintenance of the value of our brand's boats as a guarantee of the capital
