azimut Fly 62 – new 2025

2 400 000 € +
VAT

Description

The deep desire to experience the sea, celebrated by the mastery of design.

The Azimut Fly 62 revolutionizes the world of flybridges to offer unprecedented proximity to the water.

The Beach Cockpit is born, a re-imagined cockpit that faces the sea, opening into a large sunbathing area without physical or visual barriers.

On board the Fly 62 you can have lunch facing the horizon and experience nature in spaces designed to accommodate different generations and habits, those who rest in the shade and those who swim, those who take an aperitif and those who sunbathe, maintaining the sense of sharing those moments.

Turn your gaze to the sea with the Fly 62.

LOCATIONS

The exterior design is by Alberto Mancini and redefines the canons of the category by also taking inspiration from the most recent trends in the automotive world and the functional and aesthetic revolution of SUVs. The volumes of the Fly 62 superstructure move towards the bow and allow the cockpit to be developed while maintaining and evolving the sporty stylistic code of the Fly Series: lines that chase each other and increasingly clean surfaces.

The transom of the Fly 62 opens outwards and with a synchronous movement the sofa lowers, eliminating any physical barrier and creating a large sunbathing area not far from the water, the Beach Cockpit.
