sanlorenzo Sx 112

9 700 000 € + VAT

Description

The Sanlorenzo SX112 is a boat that embodies a new standard in the world of luxury yachts, with a design that combines aesthetic refinement, cutting-edge technological solutions and innovative architecture. This model represents the pinnacle of the crossover range of the renowned Italian shipyard Sanlorenzo, combining the majesty of a motoryacht with flybridge and the versatility of an explorer type boat. With a length of over 34 meters, the SX112 offers generous space and unprecedented attention to detail, designed to meet the needs of the most demanding boaters.

The beating heart of the yacht is the beach area aft, an extraordinarily large area that can be further expanded thanks to the innovative folding terraces, transforming the space into a real living room on the water of more than 90 square meters. Large sliding windows create visual and functional continuity between the interior and exterior spaces, ensuring total immersion in the marine environment. The exterior lines, designed by the famous Zuccon International Project studio, express a contemporary and timeless elegance, while the interiors, signed by the renowned designer Piero Lissoni, reflect a minimalist and sophisticated aesthetic, enriched by fine materials and luxury finishes.

Thanks to an impeccable combination of performance, innovation and design, the Sanlorenzo SX112 represents not only a means of exploring the sea, but also a unique sensory experience, dedicated to those who want the ultimate in quality, comfort and style.
