Description

XBOAT ref :5990.The FOUNTAIN PAJOT GREENLAND 34 catamaran offers great sailing comfort, and exceptional living space in relation to its length, with a double cabin at the rear of each hull and a single cabin to the starboard front.

Port maneuvers are made easier by the electric motor controls on the flybridge and at the interior helm station. The boat is motorized with 2 x 110 HP, which allow a cruising speed of 12 knots, with very low consumption (12 to 14 liters/hour).

The navigation electronics of this FOUNTAIN PAJOT GREENLAND 34 are complete with radar and GPS on the flybridge and at the interior helm station.

The cockpit is well protected by a rigid cap and side canvases.

The solar panels (3 x 150 W) are installed on the cap. Solar energy is managed by a VICTRON regulator. The boat is equipped with a 12V/220V converter with a power of 2 KW. The boat is energy self-sufficient.

The fresh water tank has a capacity of 300 liters. The boat is equipped with a desalinator capable of delivering 60 liters / hour.

Among the recent works, the following have been replaced: The helm jack (Oct 2024) - the 2 shaft line glands (2024) - the manual bilge pump - all the hull fittings (2021). More details and pictures on xboat.uk
