

SALE PRE OWNED

cantiere del pardo Grand soleil 72 long cruiser

Description

The 72-footer is the result of a totally Made in Italy design process, with a team of professionals who represent Italian excellence in the international nautical sector. The creation of the new yacht was followed by project manager Franco Corazza, while Matteo Polli, a designer with strong experience in the optimization of racing boats, was in charge of the naval architecture. Marco Lostuzzi, who dedicated himself to the structures, and Nauta Design, also contributed to the realization of this project, of the design of the general layout and the design of the deck and interiors, pursuing the goal of creating a boat with an overtly Italian aesthetic, an elegant and modern design and ergonomics of high comfort both on deck and inside.

This example is in perfect condition, perfectly maintained by the crew fixed on board. Attractive purchase conditions.
