Description

Delta 88 CARBON from Delta Powerboats

The 88 carbon is the flagship in the series of carbon fiber motor yachts built by Delta Powerboats. Pioneering design, unmatched hydrodynamic efficiency, luxury comforts and an impeccable craftsmanship enable the 88 to deliver the most memorable on-the-water experience. Her strong and light carbon fiber hull is paired with the latest IPS integration, powering the 80 ft hull to a 39-knot top speed – with up to 40 percent reduction in fuel consumption and emissions compared to equivalent GRP designs. Joystick controls provide superb maneuverability and effortless handling when docking and underway. Completed to an owner's specifications, the 88 carbon features a handmade Scandinavian-style interior highlighted by exceptional visibility, high-end finishes and generous storage. Designed for owner operation or to run with a small professional crew, the 88 accommodates eight guests with a full-beam king size master suite, a VIP- and two twin-cabins along with crew quarters for up to four crew members. The large, versatile cockpit and exterior deck areas provide space to entertain guests and facilitate any on-the-water life-style activity.

Accessories notes:

PROPULSION & STEERING

- 3 x Volvo Penta IPS 1350 systems – engines, pods, integrated control systems
- 1 x Volvo Penta electronic steering system
- 2 x Volvo Penta electronic gear/throttle (main/flybridge)
