

SALE NEW

pershing 7x

Description

Pershing 7X: The Lightspeed. **CONCEPT**Can a lightning-bolt of emotion generate infinite wonder? The new Pershing 7X concentrates the quintessence of Pershing in a compact, flawless form. 7X is lightness. 7X is speed. 7X is performance in each and every detail. A fabulous blend of the latest Pershing technology and the unmistakable design by Fulvio De Simoni.**DESIGN**The lightness of the Pershing 7X takes the forms and textures of the carbon fibre widely used in its construction. With its typical sleek, sporty features, the exterior design introduces two important aesthetic innovations that accentuate the racing spirit: the new Alusilver shade of the hull and superstructure and the two openings in the bulwarks that conceal two air exhausts and extend into two lateral muscles, as in a race car.**PERFORMANCE**Pioneering construction solutions allow the Pershing 7X to reach the incredible speed of 50 knots.This Pershing also has the Dynamic Positioning System, this is the innovative system that maintains the vessel's position, even when winds or currents are strong.**COMFORT**The large lounge is characterized by the large, fully openable windows and the dark glass sliding roof. Spatial ergonomics is maximal thanks to volumes that blend technology and performance in perfect proportions. The new, much larger rectangular portholes allow air and natural light to permeate the rooms below decks.
