

SALE NEW

custom line 120

Description

Custom Line 120' project, the new jewel of the series designed by Francesco Paszkowski Design, The Custom Line 120' project reimagines and combines many stylistic elements, even from automotive design and residential architecture. As is tradition, everything is personalized to the owner's wishes, because a Custom Line yacht represents those who live onboard. Totally new is the design of the hull shapes and lines to ensure maximum strength and lightness, thanks to the use of carbon. The project proposes an aesthetic standard with maximum formal simplicity that creates a unique example of the exterior design and interior settings.
