ferretti yachts 920

Description

Ferretti Yachts 920, the highly innovative maxi-flybridge.

Striking lines, exceptional performance, inimitable style, the Ferretti 920 is a remarkable yacht not only for its size, but also for its innovative nature. A boat of great volume, designed with a sumptuous décor, many versatile relaxation areas and a choice of classic or contemporary interior ambience.

Her splendid flybridge stands out due to the ground-breaking introduction of the “wide body” concept, which means that it extends across the entire width of the boat, providing a great deal of space. In addition to giving the yacht an imposing presence on the water, the raised forward section of the hull has also allowed a “wide-body” master suite to be included on the main deck. The majestic Ferretti Yachts 920 with a length of 28.49 metres, instantly catches the eye. In addition to the forward section at the bow, there are many stunning aspects to this yacht, including the remarkable number of relaxation spaces and the luxurious furnishings in the outdoor areas.

The magnificent interiors rival the versions found in higher category models, with its optimised space, refined decoration and luxurious furnishings. The pilot house is a technical area with a “futuristic” design. The captain can operate the entire yacht from here thanks to a large control station, equipped with a next-gen steering system and a number of touchscreen displays that encompass all of the on-board monitoring systems and navigation instruments. To top it all off, the Ferretti Yachts 920's submerged hull is 23.98 metres long, which allows it to be registered as a pleasure boat.
