wally Wallytender 43x

Description

Wallytender 43X, stands for exhilaration With the same angular styling and slippery hull as the wallytender43, speed is at the very heart of the wallytender43X's design. This outboard version can exceed 50 knots with the option of three Mercury Verado 450R racing engines. Yet control is perfect and the hull is exceptionally seaworthy. Joystick controls, dynamic positioning and autopilot are standard. Flexibility is another hallmark of the wallytender43X, which easily converts from family dayboat to superyacht tender to resort shuttle. The innovative central cockpit offers optimum protection for guests and the convenience of a walkaround. Enjoy the freedom offered by the cushioned sunbathing area on the foredeck, or seek the shade of Wally's remarkable sailcloth hardtop. Folding rear fenders expand the entertainment space, which can be configured with a smart and distinctive set of articulated sunbeds and sofas. And, uniquely for an outboard model, the hydraulic gangway that doubles as a swim ladder aft has been retained. Although designed for life outside, the wallytender43X has an extremely comfortable double berth inside. The space is naturally air-conditioned and complemented by a generous bathroom with separate walk-in shower.
