

SALE NEW

custom line Navetta 38

Description

An exceptional space where dreams and feelings of freedom take flight, for a deeper connection with the sea. The Custom Line Navetta 38 is a new-generation mega yacht with a displacement hull of less than 300 GT. With a length of 38.76 metres and a beam of 8 metres, it is the finest custom yacht in the Custom Line range to date. Its design is centred on the desire to evolve in harmony with the marine environment, with fully interconnected exterior spaces. The onboard experience reaches new heights thanks to a new stern area, one of the unique features of this new yacht. The Custom Line Navetta 38 features a brand new wide-beam Beach Club concept, entirely dedicated to leisure activities. With a total surface area of 70 m², this area is bigger, more attractive and above all more versatile. Enough to delight all your guests and enhance all your moments of conviviality on board. The project is the result of a partnership between the Strategic Product Department, headed by Piero Ferrari, and the Ferretti Group Engineering Department. The Custom Line Atelier, for its part, worked in close collaboration with the client to design a yacht that reflected his wishes. The exterior was styled by Filippo Salvetti and the interior by ACPV ARCHITECTS. The Custom Line Navetta 38 embodies all the brand's values in terms of quality, volume and comfort. The Custom Line Navetta 38 is a mega yacht featuring the very latest technology. Every trip aboard will be an extraordinary experience.
