1 150 000 € All Tax Included

Description

Astondoa 95 GLX is a luxury motor yacht built in 2000 by the Spanish shipyard Astondoa. With an overall length of 29.45 meters and a maximum beam of 6.3 meters, it offers ample space both indoors and outdoors.

Equipped with three MAN diesel engines of 1,300 hp each, the yacht reaches a top speed of 32 knots and a cruising speed of 25 knots. The fresh water tank has a capacity of about 2,500 liters, ensuring good autonomy during cruises. In 2013, the yacht underwent a significant refit that included upgrades to the interior and on-board systems, further enhancing the yacht's comfort and performance. Currently, Astondoa 95 GLX is available for purchase. Note that maintenance is required, including the replacement of two main motors and a generator. The left-hand engine is in operation with about 3,500 hours of use, and the second generator is operational. In addition, the blue hull paint has faded and would benefit from a new coat, while the flybridge teak needs attention. The owners are open to sensible offers, acknowledging the work required to restore the yacht to its optimal condition.

The interior has been designed to combine elegance with functionality. The main salon is spacious and bright, with large panoramic windows allowing for 360-degree views. The adjacent dining area can comfortably accommodate all guests. This yacht has four guest cabins: a split-level owner's suite on the main deck, a full-beam VIP suite amidships and two double cabins, each with an en-suite bathroom. The crew area, located aft, can accommodate up to four members in two cabins, ensuring privacy and comfort for everyone on board.
