

quicksilver Week-end 885

89 000 € All Tax Included

Description

The Activ 855 Weekend is Quicksilver's largest and most elegant model, built on the principles of safety, comfort, style and power. It is a practical and well-made boat. Its outstanding finish gives the impression of being a "big" boat without compromising on materials used. The practicality and innovative design have allowed this boat to make the most of the space available. In addition, visibility from the cockpit is excellent and the steering is highly efficient and responsive. It is not common to obtain such a mix of habitability and practicality for a 29 foot boat. Its 2 Mercury engines will give her the power to sail at a maximum speed of 40 knots. Designed for 10 people, you can take her out to sea, explore your local rivers or go to your favourite fishing lakes.
