

SALE NEW

**williams Turbojet 325**

**15 000 € All Tax Included**

## Description

This completely overhauled Williams from 2011 has just 58 hours on the clock.

Its 900 ACE Weber engine linked to a jet pump gives the tender its power and allows up to 48mph (77kph) acceleration in just a few seconds.

Able to carry up to four adults, the 3.30-metre Williams TurboJet 325 has been designed to maximise the space available, thanks partly to its folding backrests. Handles and rails ensure safety at high speeds and when getting on and off the tender.

Equipped with lockers at the front and under the central seat, you'll have plenty of storage space for passengers' luggage.

Thanks to its layout, the Williams TurboJet 325 is well-proportioned and ideally sized to be fitted on yachts of 12 to 16 metres or more, on the platform or in the tender garage, thanks to its compact size of 0.97m x 3.3m x 1.7m.
