Description

This prestigious 39-meter boat represents the excellence of cruising. Built with high quality materials, the hull is made of laminated wood reinforced with composite elements, a choice that guarantees structural strength, durability over time and excellent sailing performance. With a maximum width of 8.50 meters and a draft of 3 meters, the boat offers great stability and large volumes that can be lived in both indoor and outdoor spaces. It is equipped with two MAN engines of 650 horsepower each, which allow a cruising speed of about 10 knots, with maximum peaks of up to 13 knots, while maintaining optimized fuel consumption. The boat's autonomy allows an average navigation range of 500-600 nautical miles, making it suitable for longer itineraries without the need for frequent refueling.

Completely refitted in 2022, it blends elegant lines, contemporary comfort and top-notch services, offering an exclusive experience designed to satisfy even the most demanding guests. On board, up to 10 guests can be accommodated in five luxurious cabins, including a spacious owner's suite, three double VIP cabins with king-size beds and a twin cabin with single beds on the floor. Each cabin has a private bathroom, air conditioning and satellite TV, ensuring relaxation, privacy and comfort at all times of your stay. The expansive outdoor spaces include an outdoor dining area, elegant sunbathing areas, a panoramic flybridge and a modern bathing platform. Numerous toys and equipment for water sports and recreational activities are also available on board.
