terranova italian yachts Terranova t 85

3 950 000 € EX. VAT

Description

The Terranova T85 is a motor yacht with a timeless classic style, built in 2021 by the prestigious Italian shipyard Terranova Yachts. With an overall length of 26.10 meters and a width of 7.14 meters, it offers generous volumes, great stability and excellent livability both indoors and outdoors.

Designed for long cruises and maximum comfort, the T85 is equipped with a robust semi-displacement hull and zero-speed electric stabilizers, which guarantee smooth and quiet navigation in all conditions. It is a very comfortable boat, designed for those who want to relax and enjoy the sea with friends or family.

Powered by two 730 HP MAN engines, it reaches a top speed of 17 knots and optimal cruising at 13 knots, while maintaining an extremely low consumption of about 210 litres/hour in total. Thanks to the total capacity of the tanks (over 11,500 litres), it boasts a transatlantic range, ideal for those who dream of long journeys without the need for frequent refuelling. It is also very economical in consumption, especially compared to other yachts in the same category.

The bow houses two tenders and water toys, while the flybridge and the main decks offer versatile environments to experience the sea with every comfort. Ready to sail, it represents a unique opportunity on the market, suitable for both private and commercial use.

Interior description

The interior of the Terranova T85 reflects elegance, comfort and craftsmanship. The rooms are finished with high quality materials: parquet, Corian surfaces, stainless steel and contemporary upholstery.
