The MYLIUS 11E25, built in 2007 but first launched only in 2012, is a stunning Fast Cruiser built in epoxy resin with carbon reinforcements. Always meticulously maintained, she underwent several upgrades: in 2024, new batteries were installed and the engine was overhauled; in 2023, a major refit was carried out including a new jib (while the other sails date back to 2020), repainting of the mast and hull, rigging overhaul, replacement of the sail drive gasket and new seacocks, as well as replacement of the rudder shaft (in stainless steel) and the carbon rudder bearing.

The MYLIUS 11E25 is also very well equipped, featuring: composite bulkheads; carbon mast, boom, rudder, wheels, and bowsprit; teak deck with a double aft sunbed and fold-down swim platform; B&G - Simrad electronics with 4 mast-mounted Jumbo displays, 12" touchscreen GPS with Fish Finder and B&G app for tablet, autopilot, Hi-Fi system with external speakers, interior and navigation LED lighting. In impeccable condition and ready to sail. - Check the full brochure, the video and the sea trial on our Web site MEDIA SHIP
