

SALE NEW

solemar Sx30

PRICE UPON REQUEST

Description

Solemar SX30 is an ideal boat for day trips, with harmonious lines and asymmetrical design that guarantee a comfortable side passage. The console, completely renewed, has a windshield extended laterally to improve aesthetics and functionality. Next to the driver's seat, the strategic bar cabinet with fridge, sink and hob is easily accessible without obstructing the passage. The dining table quickly transforms into a sundeck for guests to relax. At the bow there is a large sundeck and a chaise-long with an integrated bathing compartment, offering comfort during sea outings.
