In 2016, the engines were replaced – currently with only 175 engine hours— along with new shafts and shaft bushings, and custom-designed 4-blade propellers by Radice. All systems were redesigned and installed to integrate the new features and accessories in a safe and reliable manner, taking into account weight distribution and using only the highest-quality materials. The APREAMARE 75 has always been impeccably maintained and stored indoors, in a hangar with a dehumidifier.
