Description

GOZZO IN SPLENDID CONDITION, LIKE A TRUE AMATEUR

2022 Solid Wood Exterior Teak & Wood Care

HISTORICAL NOTES "SHUNA"

This wonderful "auric cutter" was handcrafted by the Bianchi and Cecchi shipyard in

Cogoleto in 1963 in triple-layer laminated wood on which a diesel engine of the same date was installed, from the LISTER company, for a power of 27 hp at 2800 rpm with 3 cylinders with hydraulic steering. Vetus.

It was born as a "pontato gozzo" with "Marconi" sail (see annex 1 tonnage certificate n. 16/77 of 25/03/1977 necessary for the registration in the RID) probably as an amateur fishing boat given the passion of the Ligurians they have for certain types of fishing.
