## Description

Born from the successful pencil of the Judel/Vrolijk studio in 2004, the Dehler 39 SQ manages to combine the proverbial construction quality of the German shipyard of those years with valid sailing performance and interiors of great comfort.

The model that we offer you exclusively is in truly uncommon condition, maintained and updated with superior care and expertise.

The interiors, in the configuration of 2 cabins and one bathroom (with separate shower compartment), are in satin cherry and are like new. Worth mentioning is the large storage cabin with access from the inside, which can be converted into a bed.

Also noteworthy is the on-board equipment where the heating (just overhauled), the solar panels, anchor windlass and chain just replaced and the beautiful 3FL sails stand out very recent.

The engine has undergone major maintenance this year, including the new S-drive membrane.

In short, a truly unique and unmissable boat.
