## Description

Apreamare Gozzo 35 is a new version of the Gozzo Sorrentino that answers the modern styles of life. Apreamare Gozzo 35 is a new version of the Gozzo Sorrentino that answers the modern styles of life. The main point will be the hull designed by Marine Design, which has already taken part of many Apreamare successful models. The particular feature of this new project is the possibility to install an engine type both in axis lines (with a power from 270 hp. to 320 hp.) and with aft feet (with a power from 230 hp. to 320 hp.).

A remarkable effort has been made to develop the boat concept by the architect Marco Casali, who added value to the outdoor spaces of the deck in cooperation with Cataldo Aprea. They paid great attention to design the hull with lines that puts it in a more contemporary context while respecting the aesthetic standards of the Gozzo Sorrentino.
