toy marine Toy 72

PRICE UPON REQUEST

## Description

A harmonious, classically inspired design and careful attention to detail make the Toy 72 a unique yacht. From the large aft saloon develop the well-connected lines of the hull, deck and deckhouse. The feeling of space and comfort of the outdoor area is also found inside, with bright and welcoming spaces. The interiors of the Toy 72 offer a rational subdivision of spaces to the benefit of the usability of the different environments. The owner has the possibility to choose various layout alternatives that provide different solutions for the cabins and bathrooms. The traditional configuration provides access to the owner's and guest area forward of the dinette, with the owner's cabin and two guest cabins. Each cabin has a private bathroom with separate shower cubicle. The service area is separated from the rest of the boat and has independent access, directly from the cockpit, to allow maximum privacy. It includes a large galley, with the function of a dinette for the crew, and a twin-bed cabin with bathroom. From this area there is direct access to the engine room where all the on-board systems are gathered. Another option has been developed to give the owner maximum comfort and tranquility and is characterized by the owner's cabin amidships at full beam. In this case, the galley is provided in the dinette area, while the crew quarters are aft, again with separate access directly from the cockpit. A large garage for the tender with an opening at the stern at the tender lift make hauling and launching the tender very simple. The Toy 72 is equipped with the Volvo IPS propulsion system that provides precise manoeuvring, maximum efficiency, fuel economy and remarkable silence during navigation.
