This sailing catamaran is designed for couples dreaming of living aboard and exploring the world's oceans with ease and confidence.

Construction and Origin

Built in Knysna, South Africa, by a company rich in heritage in custom yacht construction, the Knysna Yacht Company, founded in 2002 by Kevin Fouché, has always prioritized quality over quantity. Their focus on limited production ensures that each yacht is a meticulously built high-performance vessel. The Knysna 500SE — or « Special Edition » — embodies this philosophy, offering a sporty and elegant profile with exceptional finishes.

Design and Performance

It is a true evolution from its predecessors, benefiting from improved design and increased functionality for the ultimate offshore cruising experience. With its clean lines and exceptional visibility from the helm, the 500SE offers truly easy handling with a reduced crew. The design of its hull provides a smooth and pleasant motion at sea, thanks to a long waterline and generous beam for superior stability.
