Fisher 30 in excellent condition, carefully maintained by a professional boatyard. Re-engined in 2020, it also benefits from a completely redone and optimized onboard electrical system that same year. In 2019, the standing rigging was fully renewed: replacement of the main mast and mizzen, addition of four spreaders, installation of a furling system, and rigging of the forestay. The running rigging was also replaced. The hull underwent repair at the keel base and a full antifouling paint job in 2019. The topsides were repainted in 2025, along with a full haul-out the same year. A boat that is ready to sail, reliable, and meticulously maintained.
