## Description

---

Here's why the 2014 Jeanneau 53, measuring 15.73 metres in length, deserves your attention.

Firstly, its design by Philippe Briand combines elegance, performance and comfort without compromise. On board, you immediately feel the space, light and meticulous, almost chiselled finish.

This sailboat is designed for long cruises, with a spacious cockpit, reliable equipment and a balanced hull.

Perfectly equipped, this Jeanneau 53 has a watermaker, air conditioning, an ONAN generator, solar panels, a complete offshore rig and a bow thruster for added safety and comfort.

Among its distinctive features are an added aft platform for optimised swimming access, a joystick for easy entry and exit from port, and a custom-made davit with integrated davits and solar panels.

Don't miss out! Rare opportunity: berth available in one of the most sought-after ports on the French Riviera, optional with the boat.
