## Description

---

NEW BOAT TO CONFIGURE – Contact us now for a personalized quote and to discover all the configuration possibilities. Your dream of sailing can come true.

With over 40 years of experience in the nautical sector, Barche Bellandi is the ideal partner for your new boat. We offer you personalized advice, tailor-made financing and a wide range of after-sales services.

Lomac has embarked on a complete redefinition of its acclaimed Turismo range, an ambitious project that kicks off from its best-selling model, the 7.0.

The result is a seven-meter that defies all expectations, offering performance hitherto unimaginable for a boat of this size. The hull, the result of an advanced design, guarantees exceptional seaworthiness, while ensuring sailing comfort and safety at the top of the category. But the real revolution manifests itself in future-oriented design. The new lines not only give a modern and dynamic aesthetic, but have been cleverly designed to multiply the spaces on board, offering unprecedented livability and freedom of movement. With the new Turismo 7.0, Lomac is not only renewing a best-seller, but setting a new benchmark for the entire sector.
