2 700 000 € EX. VAT

Description

THE GREENEST CHOICE in the category: MAVERIK 1 _ PJ63 Sport _ New open with futuristic features that are now a reality Palmer Johnson needs no introduction, a shipyard with a centuries-old tradition, one of the world's leading manufacturers of yachts and superyachts with an established ability to dictate new lines and trends on the market. Small heir to the Oci Ciornie, the PJ63 Sport is a true jewel of design with minimal and linear lines, made of carbon fiber that reaches a maximum speed of 34 knots with extremely low consumption to PROTECT THE ENVIRONMENT by drastically reducing the production of CO2 and without sacrificing anything.

The PJ36 Sport boasts a beautiful design in which the sleek lines and curved surfaces flow seamlessly from stern to bow. A sturdy, slender shoulder gives it an aggressive yet sensual look. The main hull of the trimaran is very thin and shallow, thus allowing the PJ63 Sport to reach high speeds with reduced fuel consumption thanks to less power needed, while ensuring incredible comfort on board, having a constant trim at all speeds and very low heel angles when turning. Thanks to its shape and very fine bow, the desired speed can be maintained even in rough seas without having to slow down to avoid splashes and blows. The cockpit of the PJ63 Sport has the largest open deck lounge in its class allowing you to enjoy great days outdoors with as many friends as you want. The two lounges on either side of the lounge, characterized by two symmetrical trapezoidal sofas, have height-adjustable tables so that they can be used as an aperitif/cocktail area or for lunches or dinners with friends. At the stern there are two
