Description

EOLO 6: The Versatile Open for Your Adventures at Sea

Are you looking for a boat that combines the savings of used cars with the peace of mind of new ones? This Eolo 6 is the opportunity you've been waiting for.

It is a very recent used boat, with a few engine hours exclusively in fresh water, in excellent condition, which has little to envy to a boat that has just come out of the shipyard. The real added value of this offer is safety: the boat is still covered by the original manufacturer's warranty, both in terms of the hull and the engine.

The EOLO 6 is an open boat with a modern and attractive design, designed for those who want to experience the sea with style, comfort and safety. With its 5.70 meters in length, this model easily combines the practicality of a small boat with the comfort and equipment of higher categories, representing an ideal choice for both beginners and more experienced boaters.

The proposed Eolo 6 is powered by a 40hp honda and therefore can also be driven without a boat license. Designed to offer excellent performance even with a low engine, the hull of the EOLO 6 guarantees smooth and responsive navigation, allowing you to plane with agility and reach respectable speeds.

The deck layout has been designed to maximize livability on board. The large bow sundeck, complete with cushions, invites you to relax and enjoy the sun in total comfort. The central and protective steering console is equipped with a wraparound windshield that ensures excellent visibility and shelter while sailing. The aft seat, which is also
