Description

PEARL 60 from 2008 (launched in 2009) – British elegance at sea
The Pearl 60 is an exceptional yacht, combining British craftsmanship with refined design by Bill Dixon and Evan K. Marshall. Its build quality and high-end finishes make it a rare and sought-after choice for discerning connoisseurs.

On board, the spaciousness is impressive: a bright saloon, a fully equipped galley, and, above all, a large, full-beam aft master cabin, a true private suite offering luxury and privacy. Three other cabins forward accommodate family and guests in absolute comfort.

Exteriorly, the yacht offers a spacious flybridge with a dining area and sunbathing areas, a convivial aft deck protected by a large electric hardtop, and a hydraulic swim platform ideal for water sports.

Designed for both performance and relaxation, the Pearl 60 is powered by two powerful Volvo engines and assisted by bow and stern thrusters for perfect maneuverability. Its high-end equipment includes reversible air conditioning, a generator, a watermaker, a hydraulic gangway, upholstery, and full teak.

The Pearl 60 is more than a yacht: it's a luxury refuge at sea, offering elegance, comfort, power, and reliability for cruising with complete peace of mind.
