

SALE NEW

apreamare Gozzo 45

Description

Tradition, the essence of the brand, is found and amplified in the new Gozzo 45. A fully Mediterranean class cruiser, starting with the total absence of steps on deck, in line with the walkaround philosophy. The Gozzo 45 offers many features that favour open spaces to provide a unique quality of life on board.

The naval architecture and hull geometries are the result of the long experience of Umberto Tagliavini, who has designed most of the yard's successful projects. The Gozzo 45 is a boat that, true to its maritime tradition, combines high performance with excellent sailing qualities, with very little roll, both cruising and at anchor. The hull is variable geometry with a deep V and is designed to offer the two propulsion systems suitable for this type of boat: the traditional shaft line Volvo 600 or IPS Volvo Penta ZF Pods.

The aesthetics fully respect the traditional lines of the Gozzo Sorrento, although resolutely and judiciously modernised. The result is a boat with personality, charm and elegance.

The exterior features include a generous aft platform, two large sunbathing areas, a cockpit table that can accommodate 8-10 guests, a forward saloon, large side decks and high bulwarks.

Below deck, the new Gozzo 45 offers a two-cabin layout, including a dinette and two bathrooms, and an optional three-cabin, two-bathroom layout. In both versions, there is a close continuity with the exterior, promoting space, air and natural light.
