## Description

---

Here is our 2006 Dellapasqua DC13 Elite, a rare model on the market, prized for its solid construction, elegant lines and impeccable seaworthiness. This boat is not just a choice, it is a safe bet for connoisseurs.

Built with a shaft drive, it stands out for its simple, robust, proven mechanics, without the constraints of more complex systems. You can sail with peace of mind, without any unpleasant surprises.

Its large, spacious and functional tender garage is a major asset, rarely found on boats of this size. It makes boarding and storage easier and contributes greatly to comfort on board.

The heat exchangers were replaced in 2024, demonstrating ongoing maintenance and a commitment to long-term reliability.

Please note: some of the interior woodwork has been damaged by the sun. This is visible, but does not affect the structure or comfort. Above all, it is a great opportunity to customise the fittings to your taste.

This Dellapasqua is a boat with character, made for those who want to sail far from the norm, with style, confidence and autonomy.
