Description

The Sessa Marine Fly 68 Gullwing (also available in the COUPE' version) represents the pinnacle of the Sessa Marine line: a perfect synthesis of elegance, technology and performance. Taut and harmonious lines define a hull with a sporty and refined style, where every curve is shaped to blend power and lightness. The balance between surfaces, plays of light and volumes give the boat a contemporary and distinctive character, capable of transmitting energy and refinement in every detail.

An iconic element of the project are the "Gullwing" side doors, real gulls wings that guarantee easy passage and extraordinary brightness inside, transforming the saloon into an airy environment open to the sea. The navigation trim is smooth and stable thanks to the high-performance hull and Volvo Penta IPS engines, which ensure great maneuverability and superior efficiency.

The Gullwing stands out for the spaciousness of the spaces and for the presence of a sunbathing area, a convivial area with table and wet bar and an elegant carbon T-top, which offers protection without sacrificing aesthetic lightness. In the bow, the sundeck that converts into a sofa with table offers an outdoor lounge ideal for experiencing the sea in total comfort.

The 68 Gullwing embodies the Sessa Marine philosophy: combining design and technology in a perfect harmony between style, comfort and power.
