Description

Glastron Yacht 007 is an iconic speedboat, famous for its connection to the James Bond universe, in particular the GT-150 model used in the film "Live and Let Die" (1973). This compact yet powerful motorboat, featuring a sporty design and high-quality materials, is known for its dynamic performance and durable fiberglass construction. With reliable outboard engines, the Glastron 007 blends American style and cinematic appeal, making it a collector's item for boating enthusiasts and cult movies. It is perfect for those who love to sail with energy and a touch of legend. 52 knots of pure adrenaline!! 100 liters of tank, and 80 of fresh water, new Quick Silver 220v battery charger, new cockpit navigation and courtesy lights, new electrical system and new bilge pumps completely refitted in 2023. 150hp engine with 50 engine hours. An opportunity not to be missed to have fun with a boat also chosen by James Bond.

Staging and technical:

Water pressure pump, Battery charger (nuovo 2023), Shore power cable, Deck Shower, Courtesy Lights, Automatic Bilge Pump, Shorepower connector, swimming ladder, Horn.

Upholstery:

Hull Cover, Cushions.
