Description

Key Largo 34 – The perfect balance between sporty design and sailing pleasure.

Those who love to experience the sea know how difficult it is to find a boat that combines sportiness, comfort and ease of use. Many day cruisers offer good performance but limited or not very functional spaces, often forcing you to choose between design and livability. Narrow seats, complicated accesses or cramped interiors can turn a day at sea into an uncomfortable experience. When there is no space to relax or move freely, you lose that sense of freedom that every owner seeks.

The Key Largo 34 by Sessa Marine was created to offer a complete, elegant and pleasant sailing experience at all times.

The walkaround layout allows a smooth transition from bow to stern, while the cockpit area houses an L-shaped sofa, telescopic teak table and kitchen cabinet with sink and fridge: perfect for relaxation and conviviality.

At the stern, the folding backrest and the double side platforms create a large sunbathing area with direct access to the sea.

The new T-top with integrated windshield combines protection, style and practicality, while maintaining the elegant lines typical of the shipyard.

Interiors

Below deck, the Key Largo 34 surprises with its comfort and brightness. The spaces are well distributed and finished with quality materials, offering a welcoming environment ideal even for short cruises.
