Description

Sessa Marine C54 / FLY 54 • Flybridge 16.35 m • IPS hull • Design & comfort top

Many yachts in the 15-17 m range promise luxury, but in practice there are sacrificed spaces, complex maneuvers in port and habitability that does not keep its promises. This means wasted time, stress and a less fluid onboard experience than imagined. Imagine having to fight with side winds, difficult mooring, narrow decks or dimly lit saloon. Or having to give up a real flybridge or living areas worthy of an apartment by the sea. In many cases, choosing a "mid-range" model involves compromises that are paid for in comfort and serenity.

This is where the Sessa Marine with the C 54 / FLY 54 models makes the difference. Here's why you should choose this boat:

Strengths

- Dedicated hull for IPS transmission: speed, robustness and great softness on the wave.
- Superior manoeuvrability even in crosswinds thanks to joysticks even on the bridge plan: simple mooring, without stern/bow thrusters.
- Perfectly integrated on-board volume, well-kept furnishings and fluid design.
- Interiors that combine domestic elegance and nautical spirit: large windows, premium materials, two distinct living areas.
- Experienced Italian brand: Sessa Marine, synonymous with Made in Italy quality and style.
