Description

Sessa Marine C38: elegant in style, agile in the sea, complete in comfort

Have you ever wanted a boat that combines the sportiness of an open with the livability of a cabin cruiser? If the answer is yes, you have probably already encountered the difficulty of finding a boat that is compact but does not give up comfort and performance. Too many "small" boats force compromises of livability; too many "large" become complex management and significant costs.

The solution is the Sessa Marine C38: a boat that makes you fall in love right from the line and that combines the sportiness of an open boat with the protection and liveability typical of a cabin cruiser model. With an external length of approximately 11.70 m and a width of 3.75 m, this model offers a planing hull of up to 36 knots while maintaining manageable dimensions and low running costs. The Italian design, the large side windows that transform the saloon into a real veranda overlooking the sea and the well-kept fittings make it a perfect choice for weekends, coastal cruises or family outings.

By choosing the Sessa Marine C38 you get:

- Maneuverability and agility even in tight harbors
- Interior comfort and protection (hard-top) for 12 people on board
- Versatility: from lunch at anchor to relaxing alone at sunset
- A model that stands out from its competitors for its balance between size, performance and livability

Interior description

Below deck, the Sessa Marine C38 surprises for how it transforms little
