Description

The C3X by Sessa Marine is the result of an ambitious project: to blend sportiness, comfort and style in three distinct souls – cruiser, open and T-Top, available in both Outboard and Sterndrive versions. A dynamic approach that reflects the shipyard's philosophy: to create emotions and offer tailor-made solutions for different types of owners, without ever sacrificing elegance. The lines are taut but harmonious, with balanced proportions and refined details that make the boat immediately recognizable in the Sessa style. The high-performance hull and powerful engines guarantee smooth and safe navigation even at high speeds, with optimized fuel consumption and excellent handling. The Open version stands out for its large panoramic windshield and the optional T-Top with electric awning at the stern, an elegant solution that protects the living area without interrupting the feeling of freedom. The cockpit, completely redesigned, is a concentrate of design and functionality: the modular backrest of the sofa allows the dining area to be transformed into a large sundeck with a folding table, ensuring maximum versatility in every situation.

Choosing the C3X by Sessa means investing in a modern, well-kept and intelligent boat, designed for those who love to experience the sea in complete freedom but with an unmistakable style. A perfect balance between Italian design, innovation and the pleasure of sailing, where every detail has been conceived to amplify the comfort and beauty of the time spent on board.

Interior description

The interiors of the C3X embody the brand's philosophy: natural
