Description

Combining elegance, strength, and comfort, the Rodman 900 Fly is an iconic model designed for enthusiasts of coastal and offshore navigation. With its 9.62 meters in length and two 230-horsepower diesel engines, it offers the perfect balance between performance and peace of mind at sea.

The hull line, typically Rodman, ensures excellent stability even in rough waters, while the flybridge provides unmatched visibility and driving pleasure. Inside, the spaces are optimized: two spacious cabins, a bright saloon, and a functional galley ensure ideal cruising comfort for extended weekends or longer voyages.

Built with the Spanish craftsmanship that made the Rodman shipyard famous, this model is equally at ease at the dock as it is on the water. Whether exploring the Mediterranean coast, fishing offshore, or simply enjoying the sun in Cannes, the Rodman 900 Fly embodies the perfect blend of versatility, reliability, and maritime style.
