pardo yachts 50

829 000 € + VAT

Description

Pardo 43 has been a great success: more than thirty boats have been sold in less than one year. Now Pardo Yachts is proud to announce its second model, the Pardo 50, displayed at the Cannes Yachting Festival 2018 for the first time as World Premiere. The new brand by Cantiere del Pardo, dedicated to powerboats, is going to launch this 16- meter walkaround boat on the market establishing Pardo Yachts as the new brand leader of the Made in Italy. Since 1973, the year of Cantiere del Pardo foundation, the shipyard has been one of the most prestigious companies in the boat building. With more than 4.000 high performance, quality and comfort sailing boats produced under the name of Grand Soleil Yachts, Pardo Yachts is now a synonym of power and elegance, comfort and functionality and can be customized upon request by the owner.

The strong relationship between Cantiere del Pardo and Pardo Yachts is remarkable in some details that the two pillars (the sailing one and the powerboat one) have in common: for example, the radius surfaces on the deck recalls the one used in sailing boats and gives value to the neatdesign

hull. As his 43-feet little sister, the Pardo 50 has been designed by Zuccheri Yacht Design, together with the Technical Dept. of Cantiere del Pardo. It has been created for a sophisticated owner, appreciating high quality, top design, luxurious and comfort combined with performance and speed.
