Description

General description

Have you ever wanted a boat that combines style, performance and conviviality without sacrificing sacrifices? Often those looking for a compact cruiser find themselves choosing between handling and comfort, or between design and livability on board. The result: compromises that reduce the experience.

With the Sessa Marine C44 this compromise no longer exists. The elegant and sporty design brings taut lines and large glass surfaces that amplify the interior light and enhance any environment. The 13.85 m x 3.99 m dimensions facilitate its handling in port, while the IPS 500/650 engine guarantees a maximum speed of up to about 38 knots and smooth and silent navigation.

What makes the C44 unique is its versatility: two cockpit configurations allow you to choose between an open environment to accommodate up to 12 people or the classic version with a sunbathing area and tender garage. The internal customizations — wood, leather, fabrics — offer a tailor-made experience. In summary: an easy-to-manage boat, perfect for weekends and cruises with friends or family, without sacrificing the sporty soul of a Yacht Line.

Interior description

Below deck, the Sessa Marine C44 surprises with its quality and brightness. The large windows along the bulwark and the electric glass roof of the hard-top make the environment airy and connected to the sea. The layout includes two independent double cabins, both with en-suite bathrooms, and spaces designed for living in comfort
