jeanneau Cap camarat 9.0

199 000 € ALL TAX INCLUDED

Description

This 2024 Jeanneau Cap Camarat 9.0 WA Series 2 is the ideal choice for those looking for a modern, fast and fully equipped walk-around. With only 76 hours of operation and a truly complete list of options, this unit is like new, impeccable in every detail and ready to be used without any additional intervention.

The boat is equipped with superior electronic equipment: dual 9" Garmin monitors, electronic chain counters, electronic adjustable headlight and hydraulic flaps, elements that improve both safety and precision when sailing. The presence of the bow thruster facilitates every maneuver in port, while the sunroof and the retractable stern awning with side sun visors guarantee maximum comfort on the hottest days. At the bow there is the awning with carbon poles, perfect for creating a shaded area dedicated to relaxation.

The 2-× Yamaha 250 hp engine configuration (from 2025) ensures brilliant acceleration, optimised fuel consumption and benchmark performance for this class. The equipment is completed by: underwater lights, 5 x 100 Ah batteries, side side opening, double refrigerator (in the cabin and cockpit), Fusion stereo system with amplifier and subwoofer and complete set of cover sheets for the bow, stern and central area. Compared to other boats in the same range, this unit stands out for its condition, options and general care. Ideal for day trips, weekends and short cruises, with a quality/price ratio that is difficult to match in today's market.
