Description

IGUANA 29 from 2017 powered by 1 x 300hp Mercury. This Made in France unit is an all-terrain amphibious boat that can be used on water as well as on land. You can directly board to access the water anywhere possible (beach, river, lake, etc.) without worrying about mooring. It can be used like any motor boat (trip, water sports (equipped with a towing mast), yacht tender (easy to tow), etc.). It stands out not only for its all-terrain tracks but also for its design and sleek lines. You will be seduced by its performance and technology. Its landing is silent and you can perform 360° rotations.
